

Leave the job to the kitchen experts

CREATING a kitchen is not a task you have to do very often.

In fact, very few people would do this more than twice in their lifetime.

Many are let down by their lack of experience and knowledge of kitchens.

Mistakes can turn out to be very costly and difficult to rectify. Thus the more help customers get, the better it is going to be.

With more than 40 years of experience, Federal Furniture Lifestyle (FFL) can certainly help create the perfect kitchen. FFL is able to customise your kitchen with a huge range of modular cabinets imported from the United Kingdom under the Symphony Group (SG).

Friendly and professional showroom sales consultants are

on hand to help customers with every detail from helping to measure up, through planning and design that is free of charge.

SG is UK's largest privately owned provider of fitted kitchen, bedroom and bathroom furniture to developers, retailers and building merchants.

With more than 30 years' experience in delivering exceptional quality, service and value, SG is one of the most recognised manufacturers throughout Europe.

It supplies more than a thousand outlets throughout the UK and worldwide.

SG's fitted kitchen furniture comes as standard the following features, some of which are not available locally such as a choice of seven-colour interior cabinet finish.

One of the Symphony's Group contemporary kitchen design.

They also have fully adjustable wall hanging brackets and internal shelving for cabinets, as well as an array of worktops for kitchens and many more.

With over 40 stylish ranges from time-honoured traditional timber designs to the more modern high gloss contemporary look, the Symphony range will

never fail.

It also boasts more than 50 cabinet types to customise your kitchen and a wide selection of accessories.

□ **Federal Furniture Lifestyle's showroom is located in Bandar Puteri Puchong opposite the Giant Hypermarket.**
